MOCERI SWEEPS DETROIT HOME DESIGN AWARDS

AUBURN HILLS, MICHIGAN - APRIL 14, 2015 — Mocerì Homes was honored at the 11th annual Detroit Home Design Awards with wins in an unprecedented 14 categories. The Awards, Southeast Michigan's most prestigious accolades for homebuilders, architects and designers, were recently presented at The Fillmore in Detroit.

Entries from Mocerì were selected from three show houses created for the Ultimate Homearama 2014. Located in Oakland Township's spectacular Pinnacle, Mocerì's Pinecrest, Villa Cortile and Greystone Manor homes represent the company's most innovative designs and artisan quality construction processes.

Mocerì was recognized at the Detroit Home Design Awards ceremony with honors in the following categories:

- Millwork
- Interior use of tile
- Exterior lighting
- Custom furniture
- Exterior use of stone
- Residential swimming pool
- Landscape design
- Lanai
- Bath more than 150 square feet
- Contemporary master suite
- Traditional dining room
- Contemporary living room
- Children's room
- Model home

For Master Builder, Frank Mocerì, the awards are a testament to the company's dedication to tradition and innovation.

"As a fourth-generation Italian American family business, we take immense pride in every home we build. Our name relies on it," he said. "The number of Detroit Home Design Awards we earned this year goes straight to the heart of our mission to continue be the industry's luxury home leader."

A national panel of independent judges selects the winners from entries across the region. Evaluating this year's entries were Kevin Alter, the Sid W. Richardson Centennial Professor of Architecture at University of Texas at Austin; interior designer Lisa Jarvis, New York City; interior stylist Mary Rossi, Minneapolis; international designer Christina Sullivan Roughan, Connecticut; and architect Reginald L. Thomas, New York City.

Moceri architect, Dominick Tringali, attributes the numerous Detroit Home Design Awards to the company's focus on collaboration. "When you have an architect and builder who have worked side-by-side for well over two decades, you can create custom homes that are truly at the apex of what's possible," he said.

These latest accolades continue the Moceri Companies' reputation as Michigan's most honored homebuilder for more than 50 years. In late 2014, Moceri won the triple crown of industry awards from the Home Builders Association of Southeastern Michigan, when the company was singled-out for Builder of the Year, Developer of the Year and Community of the Year distinctions. The all-around recognition centered on the company's Pinnacle community, the site of all three of Moceri's latest show houses.

Heralded as the "Crown Jewel" of the Oaklands, Pinnacle is the most awe-inspiring residential neighborhood developed by Moceri to date, designed to accommodate 81 luxury homes arranged artfully among meticulously planned landscapes and nature preserves.

Villa Cortile and Greystone Manor are open for tours at 4911 Pinnacle Blvd., Oakland Township, Mich., 48306, from noon to 6 p.m. daily. For more information, visit mocerihomes.com, call 248-373-6200 or email sales@moceri.com.
